FILIPINO ENTREPRENEURS.

OUR ADVOCACY

The Philippines is rich in natural resources, but decades of unfair trade policies and overreliance on imports have kept us from developing strong local industries. This has caused widespread poverty, unemployment, and the migration of millions of Filipinos abroad.

Entrepreneurs—especially MSMEs—are among the hardest hit by these policies. NA seeks to build a strong network of Filipino entrepreneurs who are informed and actively involved in pushing for national industrialization, real support for local businesses, and economic policies that put Filipino communities first.

MEMBERSHIP

NA is a voluntary and open network of entrepreneurs, business groups, and individuals united by a shared belief in national pride and the potential of local industries. Members are encouraged to join project clusters and take part in the annual National Conference to exchange ideas, build partnerships, and strengthen the local economy

“BUY LOCAL. SUPPORT LOCAL.”

Together, we can create an economy that serves Filipinos first.
